The Healthureum Ecosystem

Healthureum's innovative approach can bring widespread efficiency and transparency across 5 core fields of healthcare:

Data systemization

A framework for the secure exchange and sharing of medical data with permission layers, focusing on patient data integrity and interoperability.

Doctor consultation and referrals

Video consults, referrals and diagnostics verified and paid for using HHEM tokens.

Research programs

Contribute your data to research programs and get rewarded with HHEM tokens.

Healthureum
Your Data. Your Doctor. Your Way.

Medical Infrastructure

Blockchain based analysis of demand Vs. usage for future planning to ensure adequate access to world class infrastructure.

Philanthropic activities

Support and donate to projects of social cause with HHEM tokens which ensure traceability and ethical use of donations.

“If you're in the luckiest 1% of the humanity, you owe it to the rest of humanity to think about the other 99%”.

How it Works

Healthureum operates on the Ethereum blockchain using an ERC20 standard to deploy smart contracts for health-related services. All services procured in the Healthureum ecosystem shall accept only HHEM tokens as means of payment, and any rewards earned shall be compensated using HHEM tokens, for fast and secure transfers.
